*Principal, Barringer Academy of S.T.E.A.M.*

Congratulations to the class of 2018! Where has the time gone? You are the very first class that I have had the pleasure of watching transform from playful 9th graders to mature young adults. We started our STEAM journey together back in 2014. Since then, so much has happened along the way. I have watched you blossom right before my very eyes. I am proud of you and excited about the possibilities that lie ahead. Every college acceptance letter or career opportunity lets me know that our collective struggle was undoubtedly worth it and look at you now!

As you enter the next phase of life, I want you to know that my team and I are rooting for you and we wish you nothing but the best in your future endeavors. Like the graduates before you, I encourage you to be amazing and present your best possible selves at all times. For wherever life takes you, it is important to make your mark on the world and ensure that every space that you occupy is better because of your touch. Life will always present its share of obstacles, but mindset and hard work are everything. Use every challenge as an opportunity to THINK BIG, be happy on purpose, and have impact! You are forever loved by your Blue Bear Family and we will miss you greatly.

*Live the C.O.R.E. forevermore!*

# SENIOR ADVISERS LETTER

Dear Students,

First and foremost, congratulations on your success. It seems like only yesterday that you were nervous freshmen; we have come a long way together since then and you are now standing at the door where you will step out into the world to make your way. As freshmen, graduation day seemed so far away and yet looking back it was not so long ago.

We have seen you work hard and you have certainly proven you possess grit! We have encountered many challenges along the way and it is our great pleasure to know you carry the necessary skills to overcome the many obstacles that life contains. We wish for you to remember the choices you made that allowed you to arrive at this special moment in life. Seeing you grow and develop into confident and intelligent young adults is our greatest reward. Thank you for making us laugh and for giving us life lessons and memories that will be cherished for years to come.

Our future wishes for you are that you keep learning, keep setting goals (do not forget they can be little and big all at the same time), laugh daily, don't sweat the small stuff, and seek happiness every day. We offer our sincere congratulations and best wishes in all that you do.

*With love and fondness,*

## IIOR CLASS PRESIDENT

It feels like in the blink of an eye we went from dreaming about being seniors, to this moment when we are actually this close to the end. It was a pleasure to be the president of the senior class of 2018. We have helped each other stay on track during senior year. And shared the joy of organizing the greatest dance in STEAM history.

This stage of our lives does not represent the end of our educational path, instead it represents the starting line of our adult life. Our introduction into the real world is just beginning. Always remember to believe in yourself because... WE ARE THE FUTURE.

-Rancell Romero

"I am not a perfectionist, but I like to feel that things are done well. More important than that, I feel an endless need to learn, to improve, to evolve, not only to please the coach and the fans, but also to feel satisfied with myself. It is my conviction that there are no limits to learning, and that it can never stop, no matter what our age."

**Cristiano Ronaldo.**
